NATURAL SERIES

A COLLECTION OF WHITES AND NEUTRALS

CHOOSING WHITES AND NEUTRALS

Choosing the right white or neutral colour is no easy task and it's not until you decide you need the perfect colour for your own home that your journey begins.

Often whites and neutrals can be simply explained by having a warm or cool tone. We have picked some of our favourites from our most popular natural series colour palette to get you started.

WARMS

Warm tones are best described as relaxed and easy to live with, they work well in both traditional and contemporary spaces.

COOLS

Cooler neutrals are not as common as the warmer tones and are harder to get right. The right mix of tints used in a cool tone can create a crisp, fresh & bright colour solution.

If we can give you any advice it is to follow these steps:

STEP 1

Choose your preferred colour.

STEP 2

Buy a sample pot.

STEP 3

Try it to make sure you love it.
